

Smart and eco-innovative SEAFOOD processes and products for healthy AGEing

SEAFOOD-AGE PROJECT

ERDF funding: 2.194.640,95€

Total budget: 2.926.187,91€

Duration: 05/ 2019 | 05/ 2022

SEAFOOD-AGE tackles a common social and economic challenge in the Atlantic Area: an ageing population.

Healthy ageing requires a healthy diet, and seafood products provide essential nutrients not always accesible to older adults. The Project will exploit the maritime dimension of the Atlantic Area regions and will adopt circular economy concepts to:

- 1) generate ready-to-eat seafood for healthy ageing,
- 2) produce novel eco-packaging,
- 3) develop a smart label for better quality, safety and minimum food waste.
